

Ahlam Reda Ahmed

Fullstack Developer

+20 1503748294 | ahlamreda2004@gmail.com | linkedin.com/in/ahlam-reda-b096bb27a | github.com/AhlamReda222

OBJECTIVE

Backend Developer skilled in designing, developing, and implementing scalable software solutions. Strong knowledge in .NET Core, SQL Server, and Object-Oriented Programming. Proven ability to deliver high-quality projects on time with measurable impact. Seeking to contribute to innovative and impactful projects.

VOLUNTEERING EXPERIENCE

Backend .NET Core Team Member

Apr 2025 – Present

GDGC Al-Azhar

- Designed and implemented 3 relational databases applying OOP principles.
- Developed 5+ backend modules in .NET Core, improving project delivery speed by 30%.
- Collaborated with a team of 10+ developers, ensuring consistent coding standards.

.NET Core Team Member

Jan 2024 – Aug 2024

LINK

- Built and deployed 4 RESTful APIs with .NET Core and EF Core.
- Optimized SQL queries, reducing execution time by 25%.
- Contributed to a team project that served 200+ student users.

EDUCATION

Faculty of Computer Science and Artificial Intelligence

2022 – 2026 (Expected)

Bachelor of Information Systems

Cumulative Grade: Very Good

- Relevant Courses: Algorithms, Data Structures, Database, OOP, Software Engineering, OS, AI, System Analysis, MIS.

PROJECTS

Carshare System | Fullstack (.NET + React), N-Tier, EF Core, LINQ, SQL Server

- Developed a platform supporting 3 roles (Admin, Owner, Renter) with real-time features.
- Designed and normalized 10+ database tables with EF Core.
- Implemented 20+ CRUD operations for car listings and rentals.
- Improved booking efficiency, reducing manual processing time by 40%.
- GitHub Link

COURSES

.NET Trainee

Oct 2024 – May 2025

Digital Egypt Pioneers Initiative (DEPI)

- Completed 200+ hours of hands-on training in .NET Core, LINQ, and JWT.
- Built 3 mini-projects applying N-Tier architecture.

TECHNICAL SKILLS

Languages: C#, C++, C

Frontend: HTML, CSS, JavaScript, React

Backend: ASP.NET Core Web API, EF Core, LINQ, JWT Authentication, RESTful API Design, Database Integration, Unit Testing

Database: SQL Server, Database Design (Normalization, ERD)

Concepts: Data Structures & Algorithms, OOP, Design Patterns, SOLID, UML, Git/GitHub

LANGUAGES

Arabic: Native

English: Excellent (Reading & Writing), Very Good (Listening & Speaking)

SOFT SKILLS

Collaboration, Initiative, Innovation, Problem-Solving, Adaptability, Leadership, Communication, Time Management, Structured Thinking
